Distinctive Hardwood Floors

Distinctive Hardwood Floors owner Daniel Antes offers custom design and fabrication of wood floor accents in various sizes, thickness, colors and textures. They are produced on an aerospace-quality CNC router, may be beveled and/or distressed, and come unfinished or prefinished. Pictured is "Unbroken," a 1,220-piece award-winning medallion that is 1½ inches thick and 72 inches in diameter. danielantes.com

Faifer & Company Inc.

Faifer supplies a full range of artfully crafted mesquite wood stair parts designed for both simple and elaborate staircases, the company says. The mesquite naturally ages and displays a rich character, the company adds. mesquitefloors.com

Goodwin Company

Goodwin's selection of stair parts, including solid or laminated treads, risers, handrails, balusters and trim, are all available in standard or custom sizes and thicknesses. The stair parts come in heart pine, heart cypress and sustainably harvested hardwoods in any of the company's grades, including unfinished, prefinished, smooth or textured. heartpine.com

Grill Works Inc.

Designed for multi-layer flooring, Grill Works Inc.'s MLF Vents provide high strength-to-weight ratio and substantially reduce moisture retention, the company says. The vents are available in 4-by-10-inch and 4-by-12-inch sizes. grillworksinc.com

LogPower.com LLC

LogPower.com's hardwood flooring spline (slip tongue) is made to fit solid, ¾-inch-thick hardwood flooring that has ¼-inch tongue and groove. It is used when changing the tongue direction of a floor; installing feature strips, borders and header boards; as well as herringbone and chevron floors, the company says. It is available in boxed quantities of 1,000 and 200 linear feet and also sold by the pallet. logpower.com

Seneca Millwork

Seneca Millwork offers hardwood vents in a variety of species to complement the company's transitions. Unfinished vents are shipped sanded and clean and ready for on-site finishing. Prefinished vents are color-blended to flooring specifications and are shipped ready for installation. Multilayer flooring vents are also available. senecamillwork.com

Southern Wood Floors

Southern Wood Floors' complete line of vents, grills, grates and diffusers is made from the same reclaimed antique heart pine and domestic southern heart pine as the company's solid and engineered wood flooring. Products are available in a range of styles and sizes, with or without dampers; in flush mount or self-rimming drop-in styles; and in louvered, linear or egg crate designs. southernwoodfloors.com

Stairtek

Stairtek's Retread is available in thousands of colors, 12 species and eight textures, which makes matching prefinished wood flooring a breeze, the company says. All Stairtek products offer a 25-year warranty on an aluminum oxide finish. stairtek.com

Unity Hardwoods LLC

Unity Hardwoods offers unfinished moldings for ¾-inch flooring and stair nosings in thicknesses of ¾, ½, ⅜ and ⅙ inch. All of the company's products, which include stair treads and risers, are available in red oak, white oak, maple, hickory and walnut, with other species available upon request. unityhardwoods.com

Yantarnaya Pryad-Parquet

Nine species of wood were used in this design, which aimed to naturally incorporate the color and overall style of the room into the flooring, the company says. No stain was used as a part of this installation; rather, the color was achieved solely by the variety of species used. artparquet-eng.com
