

TOOLS + SUPPLIES

ABRASIVES

Bona US

The Bona Abrasives line includes aggressive and long-lasting abrasives designed to create an excellent surface for staining or finishing, the company says. The anti-static properties of Bona Blue Abrasives repel dust from the disc surface and prevent buildup while increasing belt life and keeping machines cleaner, the company adds.

Cumi America Inc.

Cumi's Zirconia belts are an abrasive product engineered for belt sanders. Zirconia belts are fast-cutting; smooth; chatter-free and have been designed to stay cool, the company says,

cumiabrasives.com

Festool

Festool abrasives are available in a variety of designs and grits for all of its sanders and polishers, as well as an entire hand-sanding line that includes sandpaper, sanding blocks, sanding sponges, sanding pads and sanding cloths.

festoolusa.com

Jöst Abrasives

The Superpad P Yellow features a multi-hole sanding abrasive system intended to maximize sanding performance and durability. Its narrow multi-perforation and specially designed back coating also ensure dust-free removal of sanding dust, the company says.

abrasive-ideas.com

Lägler North America

Lägler produces abrasives specifically designed for portable belt sanders, edgers and buffers used for wood flooring. The company also offers a selection of abrasives for subfloor preparation.

Virginia Abrasives

Virginia Abrasives' 5-inch and 6-inch Monster ceramic hook-and-loop discs are available in grits 36-120. They deliver positive results when used with a multi-disc drive plate, the company says. Monster ceramic floor sanding abrasives are also available in other disc sizes, belts and rolls.

virginiaabrasives.com

Woca Denmark

Woca Patina Disc is a very fine abrasive grit disc. Three of the discs can be attached to a red or green pad and can be used to wet-buff with Woca Oil. The combination of light sanding and polishing helps the oil penetrate faster into the wood and results in an extremely smooth, silky matte finish, the company says.

HighPro Tools

The HighPro Model HP-4590T Flooring Stapler is designed for installing 3/8-3/4-inch solid or engineered flooring. The tool provides the option of using an 18-gauge or a high-strength 17-gauge staple. The high-strength 17-gauge staples will handle most solid bamboo and exotic wood floor installations without causing dimpling, the company says.

highprototools.com

National Hardwood Flooring & Moulding

Target Cleats manufactured by National Hardwood Flooring & Moulding fit most nailers made in the U.S. L-shaped, 15-gauge cleats are available in 1 1/2-, 1 3/4-, and 2-inch sizes. They come 5,000 per box.

nationalhardwood.com

Better Timber Flooring

An air-driven plank installer, QuikBrace applies constant pressure to boards to tighten them into position. It can clamp and tighten multiple rows of boards at a time, and its spike anchor is easy to reposition, the company says. The wall foot allows the user to tuck in the boards in last board positions without nailing, the company adds.

bettertimberflooring.com

Porta-Nails by QEP

The Porta-Nails Portamatic 465SLT 16-gauge pneumatic stapler and nailer is a three-in-one tool for T-nails, L-nails and staples. The magazine has the capacity to hold 100 cleat nails (T or L) or 120 staples. The lightweight stapler/nailer comes with a non-marring mallet and rugged carrying case.

porta-nails.com

Powernail Company

Powernail's Model 50PFLEX with PowerRoller is designed to reduce arm fatigue, the company says. It features an exaggerated handle length, control fin and new PowerRoller configuration. Its PowerRoller base also features a large bearing and Powernail's Tri-Glide fixture to eliminate edge-crush.

powernail.com

Primatech Inc.

Developed with "end-wall reach" in mind, the Edge nailer is designed to blind-nail as close as within 2 inches of the wall, the company says. The constant pressure and tension throughout the work process provides a more uniform and professional installation, the company adds.

Essex Silver Line Corporation

The SL8 floor sander is designed to allow professional results with a 110-volt unit, the company says. It features slow constant speed, tilt action, and is ideal for jobs where 220-volt electricity is not available.

essex-silver-line.com

Cherryhill MFG Corp.

The U-Sand floor sander uses four-pad, random orbit technology and can act as a sander, edger and buffer to complete a floor sanding job from start to finish. It sands in any direction without damaging the grain pattern and is easier to use than traditional drum sanders, the company says.

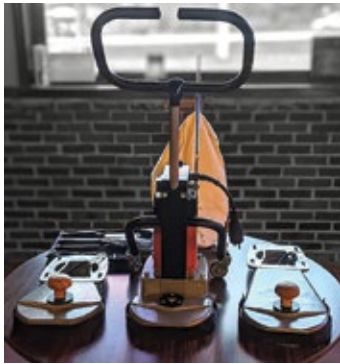

u-sand.com

Festool

Festool sanders range from the palm-sized ETS 125 to the multimode Rotex family. Many models feature brushless motors for long service life, and all Festool sanders are designed with near-total dust extraction, low vibration, ergonomics and superior performance, the company says.

festoolusa.com

FG Floortec

FG Taifun is a 7-inch-disc floor sanding edger with extensions available in 5, 8 and 13 inches. It operates with a 2.1-kilowatt (2.8-hp) variable speed from 1800-4000 rpm.
fg-online.net

Galaxy Floor Sanding Machines

The Seirios Belt Sander increases head cutting pressure by 15-20% without increasing overall weight, the company says. It is designed to create a flatter finish and has increased cutting speed, the company adds.

Lägler North America

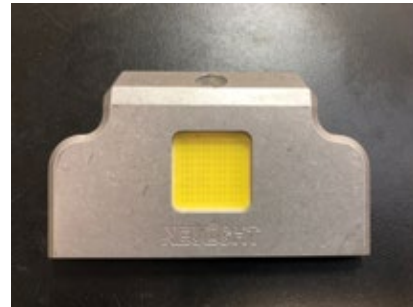

Starting in 2021, all Hummel machines produced in Germany come standard with a variety of upgrades, including an improved suspension system, updated wing nut, updated carrying handle, LED light and paddle handle. Parts are also available for purchase separately to upgrade existing machines.

laglernorthamerica.com

Neuroh Hardwood

Neulight is a super-bright LED with a low-profile aluminum housing for the Super 7R or Super E sander. The LED light is 16 times brighter than the current twist-in-style LED bulb and is able to get closer to cabinets with its low profile housing, the company says.

neurohhardwood.com

Revolution Manufacturing

Revolution Manufacturing offers the RevRider DC, a cordless rider machine used to drive floor sanding machines in both residential and sports floor environments. The RevRider DC allows the operator to drive big machines, which the company says can increase production, provide a more consistent cut and increase abrasive life.

101revolution.com

Samich Wood Floor Machines

The Legend Wooden sanding machine features a planetary system that is mono-rotating to increase the performance and speed in which the work is done, the company says. It is easy to use and allows for cross-cutting the veins in the wood surface, the company adds.

samich.it

Uzin Utz North America

The Pallmann Spider is a planetary gearing, powerful drive sanding machine that ensures a perfectly sanded surface, the company says. The multi-purpose sander is easy to use, quiet in operation and allows for easy connection to dust containment systems, the company adds.

Bullet Tools

The 13-inch Magnum Edge Flooring Shear is a heavy-duty cutter for products up to 13 inches wide and 1 inch thick. It features protective end caps, powerful ball bearings and an adjustable blade depth, the company says.

bullettools.com

Festool

The TS REQ circular saw is as accurate and versatile as the most advanced table, miter or panel saws, the company says. It features micro-adjustable depth controls and a flat housing for flush-cutting against walls or adjacent surfaces. It is also available in a cordless model.

festoolusa.com

Roberts Consolidated

The Roberts 25-inch Pro Flooring Cutter is a guillotine-style cutter that provides precise, clean-edge cuts, the company says. Its large cutting table stabilizes longer planks, and its extendible handle provides extra leverage for more cutting power, the company adds.

robertsconsolidated.com

SawStop

The SawStop safety system stops on contact with skin. The system is 26¼-inches long and 28¾-inches wide and has a 45-inch height. It features one-turn blade elevation and a Quicktilt bevel adjustment as well as a T-Style Fence with one-push Ergolock. The company says it has easy mobility with a one-push foot pedal, a low-profile blade guard, advanced dust collection, and an on-board storage compartment.

sawstop.com

SCRAPERS

Hardwood Industry Products

Hardwood Industry Products' Custom Hand Scrapers have unique "hooked" blades that allow the user to easily achieve an authentic hand-hewn look, the company says, adding that each scraper is hand-crafted with a comfortable, smooth aerodynamic handle and comes with a life-time warranty.

hardwoodindustryproducts.com

Jungle Jim Tools

The Cobra line includes 1½- and 2½-inch scrapers. Designed and tested with wood floor contractors in mind, the scrapers are also useful for many woodworking applications. The Detail Scraper has an improved blade design and works well for initial cuts when scraping corners, the company says.

junglejimtools.com

Woodwise/Design Hardwood Products

Woodwise's V-Groove Scraper cleans out V-groove flooring during the refinishing process, while its nosing scraper helps maintain the round surface of nosing or treads. A 14-inch sharpening file is also available for the nosing scraper, and replacement blades are available for both scrapers.

Oneida Air Systems

The Supercell Dust Collector is a system with enough cubic feet per minute and static pressure to run a drum sander, edger and buffer, or any pair of 2-inch diameter hoses simultaneously. It accommodates 1-inch to 4-inch port sizes. It is compact and portable, and its HEPA filter easily pulses clean in seconds, the company says.
oneida-air.com

ProTeam

ProTeam offers hard surface and horse hair brush tools kits designed to make vacuum cleaning faster and more effective, the company says.
proteam.emerson.com

Albert Bauprodukte GmbH

Albert Floorotex is a temporary floor protection mat suitable for all floors. The breathable mat protects the floor against scratches and liquid spillage. The underside contains an adhesive that prevents the nonwoven material from slipping.
floorotex.com

Artillery Tools

Artillery Tools offers a Glued Down Flooring Set for removing glued-down material such as hardwood flooring. The set comes with four blades that allow for different combinations. Included in the set is the company's Ultimate Flooring bar with 48 inches of leverage and 5¾ inches of prying motion that allows the user to stand up straight.

artillerytools.com

Bullet Tools

Bullet Tools' Magnum Floor Driver is used to tap flooring boards into position without a tapping block. The driver can be struck directly against the wood flooring tongue or flat edge without damaging the material.

bullettools.com

Craftsman

The Tradestack 22 in. Rolling Tower Premium Storage Stack includes a suitcase, deep toolbox, and a rolling unit. The units connect to each other, automatically stacking via a drop and lock mechanism and easily separating with a one-touch release, the company says.
craftsman.com

Easy Groove Tooling LLC

Easy Groove router bits are for job-site-created tongue-and-groove floor joints. They feature a top-bearing design, durable C-2 carbide tips, heat-treated alloy arbors and replaceable cutter heads. The bits are sized for ½-, ⅝- and ¾-inch-thick flooring. The company also produces an inlay router bit for installing medallions and wooden heat vents.

easygroove@comcast.net

Loba-Wakol LLC

A battery-operated sausage gun for applying Wakol adhesives in tubular bags, the Wakol Applicator 90 comes with a 7¾-inch (200-mm) distributor head for mounting Wakol Replaceable Nozzles, a quick-charger and two 18-volt rechargeable batteries.

wakol-usa.com

ProKnee Corp

ProKnee's Model 0714/0714E full length custom-fit knee pad offers a patented shin support system that spreads weight across the length of the kneepads, reducing pressure on knee joints. Straps located well below the knee joint help eliminate pinching/circulation issues, while the knee cup shape holds the joint tight, creating stability as you kneel, the company says.

proknee.com

Shaper Tools

Shaper Origin is the world's first handheld CNC machine, the company says. It is designed with flooring professionals in mind and is intuitive and easy to learn, the company adds, noting it can help create complex inlay, medallions and hardware installation. shapertools.com

Sindt Tools LLC

The T-Rex Ripper Staple and Nail Extractor is designed to remove flooring staples and nails quickly and easily. t-rexripper.com

Sharp Pog

The Sharp Pog is an oscillating saw blade sharpener that attaches to hand drills. It works quickly, is easy to use and extends the lives of multi-tool blades, the company says. sharpog.com

Tapper Tool Co. LLC

The Rapid Tapper is a tapping block that allows installers to use a rotary hammer drill to help install hardwood and laminate floors. It features an SDS tip that attaches to the rotary hammer, a large handle for easier grip and four adjustable legs to adjust to the height of the boards, the company says. tappertoolco.com
